Summary

To pursue a job opportunity in a competitive world that will challenge me to push my boundaries and expand my knowledge in the field of DevOps while allowing me to add value to the dynamics of the company

Experience

DevOps Engineer

Full Stack Academy

Sep 2023 - Feb 2024 (6 months)

Deployment, automation, management, and maintenance of AWS cloud-based production system.

Ensuring availability, performance, security, and scalability of AWS production systems.

Management of creation, release, and configuration of production systems.

Evaluation of new technology alternatives and vendor products.

System troubleshooting and problem resolution across various application domains and platforms.

Pre-production acceptance testing for quality assurance.

Provision of critical system security by leveraging best practices and prolific cloud security solutions.

Providing recommendations for architecture and process improvements.

Definition and deployment of systems for metrics, logging, and monitoring on AWS platform.

Software Developer

Retail Sols Inc

Feb 2022 - Dec 2022 (11 months)

Charter is a leading broadband connectivity company and cable operator serving more than 32 million customers in 41 states through its Spectrum brand. Over an advanced communications network, the company offers a full range of state-of-the-art residential and business services including Spectrum Internet, TV, Mobile and Voice.

-Setup Xstore application and Development environment in V17.0 and V21.0

-Troubleshooting and fixing the production issues like Store open close, data sync, peripheral devices, access and account related issues

-Worked on developing the reports like daily variance and custom reports. Fixing deployment issues and updating the deployments manually if issue exists in stores.

-Configurations, UI Changes and implementations.

Education

Jyothsamithi Institute of Technology & Science

Bachelor of Technology - BTech, Computer Science

2016 - 2021

Activities and societies:

- led a team of 4 for a mini-project during 5th semester
- led a team of 4 for a major-project during 5th semester

Curriculum:

- Object Oriented Programming Through Java
- Operating Systems
- Design and Analysis of Algorithm
- Data Communication and Computer Network
- Web Technologies
- Mobile Computing
- Data Analytics
- Python Programming
- Machine Learning
- Cryptography and Network Security
- Data mining
- Computer Forensics
- Compiler Design

My exams was got postponed due to Covid-19 from march 2020 to jan 2021.

Licenses & Certifications

 **IT Academy: Software Defined Storage Concepts - VMware**

 **IT Academy: Cloud and Virtualization Concepts - VMware**

 **IT Academy: Network Virtualization Concepts - VMware**
