Infrastructure as Code	Terraform
CI/CD	Jenkins

Project Summary

Amulya IT Solutions Pvt Ltd

Feb 2022- Jan 2024

- Experience in IAM roles and integrating AWS services.
- Experience in Securing sensitive information on the Kubernetes Clusters by integrating the EKS with KMS.
- Experience in implementation of CI/CD for Multi-Tier Architecture Micro-Services using Jenkins.
- Experience in installing, configuring and managing Jenkins for continuous delivery of software.
- Experience in Python to create resources on AWS Platform using AWS SDK.
- Experience in implementing Serverless Architecture using Python and AWS Lamdba.
- Implemented the Lambda functions in Python to trigger the serverless functions.
- Reduced the cost of bills by implementing Autoscaling according to the architecture of the software.
- Improved the release efficiency by 20% by introducing CI/CD best practices such as GitOps.

DevSecOps — *Secrets Management on EKS*

- Implemented Secrets Management on the Kubernetes clusters setup on AWS using Elastic Kubernetes Services (EKS).
- Using this project, I have secured sensitive information by storing the information on AWS secret Manager using by integrating EKS using identity services.
- Secured the StatefulSets by reading the sensitive information from AWS and mounting the secrets from secret manager.
- Learned how to setup EKS using Terraform and also integrated secret manager setup using Terraform.
- Alternatively, I've also used Python to implement similar setup using AWS SDK.

Infoesearch PVt Ltd

July 2018 - Sep 2021

- Proficient in Wordpress theme and plugin development with two plus years of experience.
- Skilled in customizing and extending WordPress functionality using HTML, CSS, and JavaScript.
- Knowledgeable in version control systems like Git for collaborative development.
- Capable of optimizing WordPress websites for performance, security, and SEO.
- Familiar with various WordPress framework and library such as Bootstrap.
