EXECUTIVE SUMMARY:

During my internship at Full Stack Academy, I honed my skills in data analysis, leveraging tools like Excel, Power BI, and SQL. I conducted exploratory data analysis, cleaned and pre-processed data, and created SQL queries to extract insights from various sources. I actively contributed to team meetings, sharing insights and recommendations based on data findings. Additionally, my experience at Ramesh Hospital provided hands-on experience in data entry within the healthcare domain.

Experience:

Data Analyst Intern:

(Full Stack Academy)

Sept'2023 – Dec'2023 / Hyderabad

Data Analysts leverage statistical methods and programming skills to analyse data sets, uncover patterns and communicate insights. Proficient in tools like Excel, Power BI and SQL.

Roles and Responsibilities:

- Conducted exploratory data analysis to identify trends, patterns, and outliers in large datasets, providing valuable insights for decision-making.

- Cleaned and pre-processed data to enhance its quality, integrity, and suitability for analysis, utilizing Python and SQL scripting for efficient data manipulation.

- Created and executed SQL queries to extract, transform, and load data from various sources, contributing to the optimization of data pipelines and workflows.

- Participated in regular team meetings to discuss project progress, share insights, and provide recommendations based on data findings.

Projects

- Titanic Ship Project:
  Implemented a model to predict survival rates using the Titanic dataset. Utilized Python, Pandas, NumPy, Seaborn and data visualization libraries to analyse and visualize the data effectively.

- Vrinda Store Project:
  Played a pivotal role in the development of an e-commerce platform utilizing full-stack technologies. Demonstrated proficiency in problem-solving, teamwork, and adaptability within an agile development environment.

- House Price Project:
  Led the analysis and visualization of house price data using Power BI, demonstrating proficiency in data visualization techniques and tools.Developed interactive dashboards and reports to present key insights on housing trends, pricing correlations, and geographical analyses.

Data Operator Intern:

(Ramesh Hospital)

Oct'2022 – Dec'2022 / Guntur, India

- Completed a focused internship at Ramesh Hospital, gaining hands-on experience in Data Entry within a Healthcare Domain.
- Efficiently managed the medical records using Database Queries.
- Developed valuable organizational skills and familiarity with data entry operations during this internship opportunity

EDUCATIONAL QUALIFICATIONS:

- Graduated with a (BSc in Mathematics, Statistics, and Computer Science) from Acharya Nagarjuna University with first Division in 2023
- Obtained First Division in Intermediate and SSC examinations.

Technical Skills:

- **Advance Excel:** Proficient in data manipulation, analysis, and visualization using advanced functions, pivot tables, and charts.
- **Power BI visualizations:** Basic knowledge of creating interactive reports and dashboards to convey insights effectively.
- **Python:** Basic knowledge of NumPy, Pandas, Matplotlib, Functions & Loops
- **MySQL:** Creation of tables, Joins, order by DDL, DML, DQL, DCL and TCL commands, Queries
- **Looker:** create a dashboard, visualization, charts, blanks reports, themes, time series,
- **Data Analysis:** Solid grasp of statistical concepts and methods for extracting meaningful insights from datasets.

Individual Skill Sets:

- Strong attention to detail
- Team collaboration
- Time management
- Analytical mindset

Personal Details:

Name: Shaik Mahaboob Subhani
Gender: Male
Languages Known: Hindi, English, Urdu and Telugu.

Place: Hyderabad
