Profile

As an enthusiastic and innovative aspiring Data Scientist, I am deeply passionate about exploring the power of data to drive decision-making and innovation. My academic background in Computer Science, combined with my hands-on experience in data analysis and machine learning, has equipped me with a strong foundation in the field. My goal is to contribute to a team where I can apply my skills to solve real-world problems, learn from experienced professionals, and grow as a data scientist.

Projects

Credit Card Fraud Detection

As a Data Science enthusiast, I undertook a comprehensive project focused on Credit Card Fraud Detection, showcasing my ability to apply advanced analytics and machine learning techniques in real-world scenarios. This project aimed to develop a robust fraud detection model to enhance the security measures in financial transactions.

Advanced Market Basket Analysis and Sales Strategy Development

Conducted end-to-end project encompassing advanced market basket analysis. Utilized data cleaning, EDA, and customer segmentation for actionable insights. Formulated impactful sales strategies, optimizing product placement and driving business growth.

Education

Bachelor of Engineering (Computer Science Engineering),

Lords Institute of Engineering and Technology ⬈
2021 Jul – present | HYD, INDIA

Professional Experience

Data Science intern, *Full Stack Academy*
2023 Oct – present | Hyderabad, India

- Successfully handled major project relating to real time world problems where we built machine learning algorithms.
- Experienced and well versed with Data Visualization tools and technologies.
- knows about the Agile methodology,Ci/CD pipelines and worked on Cloud deployment.

Skills

- Python Programming
- SQL(My SQL)
- TensorFlow, Keras and SKLearn
- Machine Learning
- Deep Learning
- NLP
- Hyperparameter Tuning(ML)
- Time Series Analysis

Soft Skills

Time Management

Leadership

Work Ethics

Good Communicator and Presenter

Attention to detail

Team Player
